INVESTABLE SURPLUS

₹25,000/mo

Post ₹12k buffer

RECOMMENDED ALLOCATION — ₹25,000 MONTHLY SIP

ASSET CLASS	WEIGHT	MONTHLY ₹	ILLUS. RETURN
Equity (Large / Flexi-cap MF)	50%	₹12,500	~12% p.a.
Hybrid / Balanced Advantage	15%	₹3,750	~10% p.a.
Debt Funds / IDBI FDs	25%	₹6,250	~7% p.a.
Gold (ETF / SGB)	10%	₹2,500	~8% p.a.
Total Deployment	100%	₹25,000	~10% blended

Allocation reflects a standard Moderate risk framework. Return figures are illustrative planning assumptions, not guarantees.

MONTHLY CASH FLOW

INFLOW

₹1,50,000

OUTFLOW

₹75,890

NET → DEPLOYED

₹25,000

Largest discretionary lever: Dining & Food Delivery ₹11,384 (~15% of outflow). Housing ₹26,562 · Groceries ₹18,973 · Utilities ₹11,384.

ADVISORY ACTIONS

- Build the emergency fund first.** Route the ₹12,000/mo buffer to a liquid fund until it covers ~6× monthly outflow (target ~₹4.5L). This is the weakest health pillar.
- Deploy ₹25,000/mo** across the Moderate SIP allocation above via IDBI Mutual Funds; automate on salary-credit date.
- Lift expense stability (30%).** Trim dining/delivery by ~30% to free ~₹3,400/mo toward the buffer and goal.
- Keep the House goal equity-tilted.** The ~9-year horizon supports the 50% equity weight; review annually and de-risk from 2033.

GOAL TRACKING

House Purchase

TARGET 2035

Saved ₹3,54,678

Target ₹10,00,000

On track. 35% funded. Existing corpus compounding at ~10% p.a. over ~9 yrs projects near-target on its own; a modest ₹2,000–3,000/mo top-up closes the ₹6.45L gap with margin.

DATA INTEGRITY NOTES

- Emergency-fund raw metric returned an invalid value in-source; represented here qualitatively.
- Investable surplus uses the dashboard figure (₹25,000). Raw net cash flow (₹74,110) differs; reconcile before execution.

ADVISORY BASIS

Prepared by ArthAI on the IDBI Wealth Advisor platform using the client's stated Moderate risk profile, cash-flow data and active goal. Allocation is a model recommendation for review.
